Hand tools for Fiber Cable

Version: 2016A

Description: Fiber optics stripper	Pictures / Model Number
- For stripping 250 micron buffer coating to expose 125 micron cladded fiber - Second hole for striping 2-3mm fiber jackets 140um diameter hole and V-opening in blade allows removal of 250 micron buffer coating from 125 micron fiber - Pre-set at the factory – no adjustments needed - Will not scratch or nick glass fiber - All stripping surfaces are manufactured to precise tolerances to assure clean, smooth strips - Comfort-grip, ergonomic handles - Lock to hold tool closed when it is not in use	PR221001

Description: Fiber optics stripper	Pictures / Model Number
- For stripping 250 micron buffer coating to expose 125 micron cladded fiber - Second hole for striping 2-3mm fiber jackets 140um diameter hole and V-opening in blade allows removal of 250 micron buffer coating from 125 micron fiber - Pre-set at the factory – no adjustments needed - Will not scratch or nick glass fiber - All stripping surfaces are manufactured to precise tolerances to assure clean, smooth strips - Comfort-grip, ergonomic handles - Lock to hold tool closed when it is not in use	PR221002

Description: Fiber optics stripper	Pictures / Model Number
- For stripping 250 micron buffer coating to expose 125 micron cladded fiber - Precision diameter hole & V-opening in blade allow for accurate buffer coating removal - Pre-set at the factory – no adjustments needed - All cutting surfaces are precision formed, hardened, tempered and ground - All stripping surfaces are manufactured to precise tolerances to assure clean, smooth strips - Comfort-grip, ergonomic handles - Lock to hold tool closed when it is not in use	PR221003

Vat number: 24849130

Description: Tri-hole Fiber optics stripper	Pictures / Model Number
• Three hole fiber optic stripper model performs all common fiber stripping Second hole for striping 2-3mm fiber jackets functions, this fiber optic stripper strips the 1.6-3 mm fiber jacket down to the 600-900 micron buffer coating ,the second hole strips the 600-900 micron buffer coating down to the 250 micron coating and the third hole is used to strip the 250 micron cable down to the glass fiber without nicks or scratches • Model No.: PR221009	PR221009

Description: Adjustable Fiber Optic Strippers	Pictures / Model Number
• Dual-Hole Adjustable Striper is professional stripper for optical fiber cable • Available for jacket and coating stripping, All cutting blade processed by • Model No.: PR221010	PR221010

Description: Adjustable Fiber Optic Strippers	Pictures / Model Number
• Dual-Hole Adjustable Stripper is professional stripper for optical fiber cable • available for jacket and coating stripping, All cutting blade processed by precision molding, wearable and long lifetime • Stripping completely, not to damage fiber core. • Adjustable stripping range: 0.10--2.60mm • compact and easy to handle, size: 6 inch	PR221011

Description: Fiber optics stripper	Pictures / Model Number
● New fiber stripper with center feed design allows for longitudinal approach fiber ● Brand: Miller	PR221012

Description: Fiber optics stripper	Pictures / Model Number
● New developed fiber stripper with center feed design allows for longitudinal approach fiber ● US Conec Ribbon Stripper ● Model No.: PR221013	PR221013

Description: Fiber optics stripper	Pictures / Model Number
● It is designed with a small, lightweight, easy to use, longitudinal peel, peel force is small, high quality fiber stripping ● blade durable and easy to replace ● using linear bearing guide and thermal stripping methods to ensure no damage to the fiber, easy to strip the coating layer fiber stripping and high efficiency ● It has overall with fiber stripping and window functions	PR221014

Description: Fiber optics stripper	Pictures / Model Number
• Optical Fiber Thermal Buffer Stripper is an alternative to mechanical buffer removing tools when there is a requirement for reliable and 100% clean removal of buffer materials from optical fibers, which is a must in mechanical and fusion splicing, as well as in termination of some traditional ferrule-based connectors. Use these unique tools for single (discreet) fibers or for 2-12 fiber ribbon stripping applications. 10 to(discreet) fibers or for 2-12 fiber ribbon stripping applications. 10 to 20 second quick heat up. Four types of fiber holders:1-, 4-, 8-, and 12-fiber capacity, Battery life - 5 hours, continuous heating. • Ordering information: PR221017 Thermal Fibre Stripper PR221017-1 Stripper Fiber Holder, "x"-Fiber Capacity	PR221017

Description: Fiber optics stripper	Pictures / Model Number
• These precision strippers feature a mini heater oven that heats and softens the coating or buffer being removed to result in a quick, easy and precision strip every time. The Soft-Strip® tools use the same replaceable, interchangeable blade • To Order a Complete Soft-Strip Ribbon stripping Tool or Replacement Blade set, please contact with us for more information. Description: Fiber optics stripper	Pictures / Model Number
- PR221018 is the industry's first hot jacket remover that meets IPX1 (water proof protection Class1) and withstands harsh environmental conditions. - Lightweight, splash-proof, portable and rugged design - Easy fiber coating removalEasy fiber coating removal - Accept 3 way power supply (Battery/AC/DC) - Console panel is located on the top of the remover for ease of operation. Bright LEDs make it easier check remover settings. The jacket remover is also equipped with power save and auto power off functions.

Description: FTTH flat drop optical cable stripper	Pictures / Model Number
• Tool for FTTH flat drop optical cable. Simple jacket removing without fiber damaging • Lightweight and compact	 Flat Drop Optical Cable PR221030

Description: Fiber optics stripper	Pictures / Model Number
• The Miller PR221204 Fiber Optic Tube Scorer is a uniquely designed precise • one-step buffer tube scorer that scores tube sizes from 1.6mm to 6.0mm. • Made of resilient acetal polymer, it is houses a fixed hardened carbon steel • blade that does not require any adjustments. Measures 3.75" x .625". It is used to quickly and easily access fiber in 1.9mm to 3mm buffer tubes in a mid-span location without damage to fiber. No blade adjustment is necessary as the factory precisely mounts the blades in the tube slitting channels, resulting in consistent and accurate shaves. The tool design incorporates buffer tube size gauges on the tool body for ease of selecting proper tube slitting channel.	PR221204 Mid-Span Access tool PR221204-1

Description: Slit & strip for round cables	Pictures / Model Number
• Slit & strip for round cables PR221039 • Slit & strip round cables with 0.18" - 1" (4.5mm-25.4mm) diameter. • Adjustable cutting depth	PR221039

Description: Longitudinal Cable Sheath Slitter	Pictures / Model Number
• Longitudinal Cable Sheath Slitter PR221040 • Tool for safe longitudinal slitting of plastic cable sheaths with different thickness • Applicable either at the beginning or in the middle of the cable. Additional attachable pieces for slitting optic cables and cables with small diameter available • Attachable piece, grey for cables up to 25 mm	PR221040

Description: Armored Cable Slitters	Pictures / Model Number
• PR221044B: ideal for slitting the corrugated copper, steel or aluminum Central Tube, Stranded Loose Tube fiber optic cables and other armored cables. Lade rotates 90 degrees by activating blade lever, allowing easy mid-span preparation (ringing and slitting). Adjustable from 0.315" (8 mm) to 1.125" (28.6 mm) cable O.D. • PR221044B: Adjustable from 0.157 in. (4 mm) to .939 in. (10mm) for smaller cable O.D. options. Adjustable blade depth to 5.5 mm maximum to accommodate different cable jackets.	PR221044A PR221044B

Description: Longitudinal Cable Sheath Slitter	Pictures / Model Number
- Longitudinal Cable Sheath Slitter PR221041 - Perfect tool for cutting jackets from a variety of fiber optic cable - V-opening in balde - Adjustable blades with a screwdriver for various size cables - Economical tool for multiple cables - Works with standard 30-10 AWG (0.05-6mm2) wire in addition to fiber optic cable	PR221041 PR221041

Description: Across and Longitudinal Slitter	Pictures / Model Number
- Across and Longitudinal Fiber Cable Slitter PR221043 - It can do both across and length wise stripping - It uses unilateralism ratchet wheel to operate, so that the first-time stripped cable has the symmetry hatches on both sides, as we know, the Side Fiber Cable Ripper must strip twice in the optical cable cut-over with service process, it solve this shortage - It can do one-off strip for the fiber cable Ø10~Ø30mm - It is portable, compact, easy to operate, timesaving, the cut-in depth can be accommodated and can strip at any part of the fiber cable	PR221043

Vat number: 24849130

Description: Precision side cutter	Pictures / Model Number
• Precision side cutter PR221110 • It's for Sharpened cutting edges with a hardness of 45-48 HRC. Cuts soft wires with a diameter of up to 2 mm and harder wires up to 1,2 mm.	PR221110

Description: Cable cutter	Pictures / Model Number
• Cable cutter PR221111 • The This strong cable cutter can be used for cutting almost all kinds of fiber optic cables. From small size break-out cable to 3mm cable, it provides a quick, easy, reliable and clean cutting.	PR221111

Description: 6" Side Cutting Pliers (150mm)	Pictures / Model Number
• 6" Side Cutting Pliers (150mm) PR221112 • Precisely cuts dot matrix printer firing pin, wire spring, piano wire, hard steel components pinsteel components pin	PR221112

Description: Steel Wire Cutter	Pictures / Model Number
- Steel Wire Cutter PR221113 - Mild steel strand 6mm - High tensile steel strand 4mm - Hard drawn spring wire 2mm	PR221113

Description: Ratchet Cable Cutter	Pictures / Model Number
- Ratchet Cable Cutter PR221105 - The Ratcheting Cable Cutter is great for aluminum armor, Cutting Range: 240mm 2 Max. The cutter is applicable for cutting cu/al cables, single strand or multi-strands of cables. Attention: Not for cutting steel or steel wire. The Ratcheting cutter is great for aluminum armor, not intended for ACSR. - Cuts up to 35mm diameter.	PR221105

Vat number: 24849130

Description: Fiber Optic Crimp Tool	Pictures / Model Number
• Less Push strength up to 30% • Interchangeable crimping modules are available • Suitable for Fiber Optic SC, ST, FC, SMA, SMA or SFR connectors • For crimping optical fiber connectors	PR221203

Description: MID-SPAN access tool	Pictures / Model Number
• Mid-Span Access Tool is an efficient and indispensable tool for fiber optic cable termination, It easily slits the PVC cable jacket into two halves before crimping, in both field and plant applications, time is saved and consistency is resulted with this precise and innovative tool. • PR221205, for cable diameter: a. Ø4.5mm; b. Ø6.0mm; c.Ø7.0mm; d. Ø8.0mm; e. Ø11.0mm). Tool size(mm):65×56×28; Weight: 6.5g • PR221205-1, for cable diameter:	PR221205 PR221205

Vat number: 24849130

Description: Fiber Optic Scribe Tool	Pictures / Model Number
• Carbide Blade Dual Scribe PR221301 • DualScribe tool has a 30°, single bevel, blade with a 5.55 mm long contact area. The blade is reversible, which doubles the life of the scribe. The soft, non-slip grip provides precise control during scribing. The scribe is approximately 5" long from end to end. Each scribe comes with a clear safety cap to protect the blade from damage when not in use. • Provides for a wider cutting surface- 6mm· safety caps protect blades when not in use	 PR221301

Description: Fiber Optic Scribe Tool	Pictures / Model Number
• Diamond Fiber Optic Carbide Scribe PR221305 • Economical pen-type fiber scribe with non-reversible tip • Provides for a wider cutting surface-4mm • Safety caps protect blades when not in use	 PR221305

Description: Fiber Optic Scribe Tool	Pictures / Model Number
• Economy Ruby Optic Scribe PR221306 • Provides for a wider cutting surface- 6mm • safety caps protect blades when not in use • This scribe tools is used primarily for removing optical fiber tips protruding from fiber optic connectors, prior to polishing the connector's end-face.	 PR221306
